Finished work of coding case study

Here is the finished website of coding case study. The responsive design is working and adapting to various screen sizes.

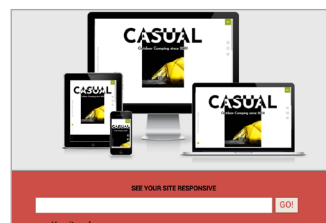

'Am I Responsive?' shows the responsive design as above.

Am I Responsive?
http://ami.responsivedesign.is/

'Am I Responsive?' is an easy-to-use online tool that shows us how responsive a page is. Getting an instant visual screenshot with some device mockups helps to expect how it will look on those screen sizes.
